How It Works

1. Sign up free

Get your unique referral link and 6-digit affiliate code in minutes. No W-9 required until your first deal funds.

2. Share your link

Send it to a small business owner who needs working capital -- by email, text, or however you already communicate with your network.

3. They apply

A one-page application, automatically tagged with your affiliate code so every submission is tracked to you.

4. You get paid

When their deal funds, T.A.G. reaches out to arrange your commission -- typically within 5-10 business days of funding.

Common Questions

How much can I earn?

Up to 2% of the funded amount on deals that close through your referral link. Earnings are not guaranteed and depend entirely on the referred business qualifying and completing funding.

Do I need a license?

No. You are introducing a business owner to a funding company, similar to recommending an accountant or attorney. T.A.G. handles underwriting, compliance, and funding.

Is there a minimum number of referrals?

No minimum, ever. Your affiliate link never expires and there is no cost to stay active.

What if my referral does not qualify?

You do not earn on that deal, but your link stays active for every future referral. Commissions are paid only on deals that successfully fund.
